Brook Park, Ohio – August 23rd, 2010 – North Coast Logistics Inc., a business specializing in Third Party Logistics, is proud to announce the opening of a modern 75,000 square foot facility in Macon, GA. This facility located in the heart of Georgia, was the target of growth and sustainability solutions that North Coast Logistics aimed for in expanding its operations into the Southern Atlantic Region.

After strategic analysis of the region was completed between two of the largest markets, Atlanta, GA and Jacksonville, FL respectively, Macon became the bridge between. Long term cost and energy savings captured from operating in Macon were key competencies in the selection process. With ever increasing traffic congestion and operating expense's fluctuating in a larger metropolitan market, the distinct value of this location is passed directly to our customers overall supply chain spend reducing the variables that are driving customer costs.

North Coast Logistics new facility is located minutes from the I-16, I-75 split with same day service to some of the largest Atlantic ports along the east coast. Supporting our green initiatives, this class A food grade space is equipped with T5-HO lighting fixtures in addition to an ESFR sprinkler system, 20 loading docks, 28' clear height, and 24/7 security monitored system with manned guard surveillance. For inquiries regarding North Coast's Macon Facility, please contact corporate headquarters at 216-362-7159.

About North Coast Logistics Inc.

Founded in 1992 by Patricia Gazey, North Coast Logistics is a leading Third Party Logistics provider to the retail, food, medical, and industrial products industry. NCL offers complete warehousing, distribution, and transportation solutions to the end user. Multiple value-added services include raw material plant support, finished goods consolidation, kitting, order processing, cross docking, and private dedicated fleet operations exclusive to NCL customers. North Coast Logistics is a certified Women's Business Enterprise through WBENC and is proud to foster women's leadership in our commitment to diversity in the workplace.
